Throughout this report 'South East' refers to the combined figures for South East LA's who have provided data. Where the IDACI score for the South East is shown, this will have been re-calculated to include only those LA's who have provided data for the indicator shown. Therefore the South East IDACI score may vary throughout the report.

You can now toggle LA's on and off the charts by using the tick boxes on each page- this will only affect the active section. r-squared values are now included on the vs. IDACI charts.

Indicators

Children's Social Care Benchmarking

	<i>Indicator</i>	<i>Definition</i>
Referrals	Referrals received	Referrals received in to Social Care Teams
	Referrals with prior Early Help Intervention	Referrals received in to Social Care where there was a previous Early Help intervention within the previous 12 months
	Referrals Assessment	In order to align the benchmarking report with the CIN Census publications this is now defined as Referrals received which did not result in No Further Action
	Source of Referrals	As reported in the CIN Census, detailed Referral Source information is collected and reported in the benchmarking
	Re-referrals	The number of Referrals received in to Social Care where there had been a previous Referral in the last 12 months
Child in Need	Assessments	The number of Social Care Continuous Assessments completed
	Assessment Authorisation Timescales	The number of Assessments which were completed within each timescale. The breakdown for the most recent period is shown as well as trend information for the proportion of Assessments completed within 45 days
	Assessments resulting in No Further Action	Assessments resulting in No Further Action from Children's Social Care
	Children in Need	The total number of Children in Need at the last day in period, including CP and LAC
Child Protection	Section 47 Enquiries	Number of Children subject to Section 47 Enquiries which started during the period
	Initial CP Conference	Number of Children subject to an Initial Child Protection Conference held during the period
	Initial CP Conference within 15 days	Of the Initial CP Conferences held during the period, the number which were held within 15 days of the Section 47 Enquiry which led to the conference
	Number of Children subject to a Child Protection Plan	Number of Children subject to a Child Protection Plan as at the last day in the period
	Children subject to a Child Protection Plan who had their cases reviewed within the required timescales	The number of children with a Child Protection Plan at last day in period who at that date had been the subject of a Plan continuously for at least the previous 3 months and had their case reviewed within the required timescales

IDACI (Income Deprivation Affecting Children Index)

Throughout this report, various indicators are plotted against the IDACI score of the Local Authority. The most recent IDACI figures were produced in 2019 using mid-2015 population estimates. The IDACI score represents the percentage of dependent children (non-prisoners) aged 0–15 living in income-deprived households. Where the IDACI score for the South East is shown, this will have been re-calculated to include only those LA's who have provided data for the indicator shown. Therefore the South East IDACI score may vary throughout the report.

*National Reoffending is measured by the Ministry of Justice using PNC data. From October 2017 the MoJ have changed the way reoffending is measured. They are now measuring a cohort of young people who offend within a 3 month period and track them for 12 months. The new measure produces an increase in the rate of reoffending as there is an inbuilt over-representation of prolific young offenders. Previously a prolific young offender would only be counted once in the 12 month cohort they could now be counted up to four times. The MoJ predict that this will lead to a 4-5 percent increase in the reoffending rate.
